Capital replacement costs make up the second highest share of the City's property tax because of Shoreview's approach to financing infrastructure replacement (such as streets). Many cities utilize special assessments to recover all or a significant portion of the cost of street and utility replacements. In Shoreview, considerable effort is put into planning for infrastructure replacement. The City identifies the resources (taxes and utility fees) that are necessary to support upcoming capital replacement costs well in advance, so resources are available when needed.

Although one might think that this practice would result in higher taxes for Shoreview, it has actually helped the City keep a stable and competitive tax rate. When comparing the City portion of the property tax bill to 28 other metro-area cities similar to Shoreview in size, in 2016 Shoreview ranks 5th lowest.
