SHOREVIEW COMMONS IMPROVEMENTS WILL CONTINUE THIS SPRING

Improvements at Shoreview Commons, located next to the Shoreview Community Center, will continue moving forward this spring. This phase of improvements includes the construction of a new decorative pond and formal garden area, construction of a plaza-style skate park, trail and sidewalk extensions, and landscaping. Reconstruction and resurfacing of the upper community center parking lot took place last fall.

The new Shoreview Commons Skatepark Plaza is expected to be open this spring. Additional improvements available this spring include a new neighborhood playground and park shelter at the park on Mound Avenue.

Contractors will complete work on the new pond area, final grading and surfacing of the new sidewalks and trails around the new pond area. There will be a significant amount of landscaping throughout the project area, including the installation of more than 130 trees, and planting of various shrubs and perennials in the garden area.

Planning and design work has also started on the second phase of improvements. These include a destination playground and a new park building. Design plans for this playground and park building will be available to review this spring or early summer. "We are very excited to complete and open these new improvements to the Shoreview Commons," stated Mayor Sandy Martin. "This will further enhance the Shoreview Commons area and the Shoreview Community Center as the central gathering spot for our residents and truly create a "central park" for our great city."

WATERING TIPS

Save water this summer while keeping your lawn healthy! Healthy lawns only need around two inches of water each week. That's about 20 minutes of watering twice a week. Be sure to water before 11 am or after 5 pm.

WATER QUALITY REPORT

Shoreview monitors city drinking water each year, as required by federal law. The results for 2019 show no contaminants detected. View the full report online at shoreviewmn.gov/water-quality-report. Contact Dan Curley, public works superintendent, at 651-490-4672 with questions.

WATERSMART

All residents can sign up for WaterSmart, a free digital dashboard for water customers in Shoreview. You will receive a personalized home water report three times a year and can view your water usage online. Since 2016 Water Smart customers have saved over 10 million gallons of water!

IRRIGATION CONTROLLER REBATE

Residents with a current irrigation system controller can apply for a rebate if they upgrade to a smart irrigation controller. The must be WaterSense-certified. The rebate is for 75% of the cost, up to \$150. The Metropolitan Council's Water Efficiency Grant Program, with help from the Clean Water, Land and Legacy Amendment, provided partial funding for this program. Learn more at shoreviewmn.gov.

KEEP SHOREVIEW'S WATER CLEAN

You can help keep our water clean! Keep grass clippings and leaves out of the street and make sure dog waste gets picked up. Keeping these things out of our storm sewers keeps our water cleaner and healthier.

2020 TOUR DE TRAILS

Discover the wonderful trails in Shoreview with your friends and family at the Tour de Trails bike ride. Short and long loop options are available. All participants will receive a commemorative t-shirt created by Chippewa Middle School students to celebrate the 20th anniversary of the event.

TREE CARE 101

Spring and summer are a great time to plant, trim* and care for most of the trees on your property. Healthy trees benefit not just our lawns and homes by providing shade, but also our air and water while providing important habitat area for animals. The most common trees in our community have special needs, so make sure you know how best to care for your trees. Whatever trees you have, make sure to hire only licensed and bonded tree contractors. A list of current contractors is available at www.shoreviewmn.gov/tree-trimmers.

ASH TREES

Ash trees can be trimmed during spring and summer. All ash trees should be protected from Emerald Ash Borer, an invasive species that kills ash trees. Shoreview offers a treatment program at a reduced cost that injects insecticide into the trunk of ash trees and targets the Emerald Ash Borer. Request an inspection and quote for the EAB program at 651.490.4665.

MAPLE TREES

Characterized by their large, colorful leaves, maple trees are beloved in our neighborhoods and community spaces. Maple trees should be trimmed in mid-summer to prevent them from losing too much sap. Tapping maple trees to gather sap for maple syrup is a popular activity in February/March. Learn more about tapping maple trees at www.tapmy-trees.com.

OAK TREES

Oak trees are unlike most other trees in Shoreview and should only be trimmed or removed during the months of November, December, January and February. Oak wilt is a fungal disease that kills thousands of oak trees every year and can be spread very quickly to any tree that has an open wound. If your oak tree is wounded, seal the wound quickly with one coat of shellac or a water-based paint. If you suspect oak wilt, contact the natural resources office at 651.490.4665. More details available online at www.shoreviewmn.gov/forestry.

STASSEN AGAIN: THE POLITICAL RISE, DEMISE & REDEMPTION OF HAROLD E. STASSEN (1907-2001)

Harold Stassen is best known for his ten unsuccessful runs at the U.S. presidency, but his life and politics were far more complex. Known as Minnesota's "boy governor" during the Depression, Stassen co-authored the United Nations charter, a member of the Eisenhower administration, and a perpetual presidential candidate. Stassen consistently argued for moderation, tolerance and common sense during a time it was in short supply of each.

Steve Werle, history teacher and author of the biography, *Stassen Again* (MNHS Press, Mar. 2015), will examine the rich legacy of this famous, but often misunderstood Minnesota politician and statesman.
