Development Update

HOUSING AND ECONOMIC DEVELOPMENT

The city continues to see new commercial and residential development, reinvestment, and construction despite the pandemic. In the past few years, Shoreview has added more than 1,200 apartments and townhomes, expanding the variety of housing choices available. The following is a summary of commercial and housing development over the past year.

NEW HOUSING

Edison at Rice Creek - St. Louis-based JPL Development is developing a total of 401 rental housing units including 300 apartments and 101 townhomes and carriage homes. The city helped support 22 affordable units with the project through a local tax abatement. The final phase of a 150-unit apartment building and an additional 33 townhomes are currently under construction and scheduled to open by the end of 2022.

Midland Terrace - construction is nearing completion of a new apartment building within the Midland Terrace rental community. The project involved the tear down of an older 42-unit apartment building to be replaced with a new 103-unit building. The new building is being constructed adjacent to the luxury Lakeview Terrace building, and is expected to open by this summer.

Emrik SV - the second apartment building of the nearly \$90 million, multi-family residential redevelopment project opened in November, 2021. Along with the first building, Loden SV, a total of 410 upscale apartments were constructed. The city is providing funding assistance in support of 24 affordable units in both buildings.

BUSINESS DEVELOPMENT

The Lex at 4100 – a major redevelopment and upgrade to an older office building was completed in Shoreview Corporate Center campus at Lexington Avenue and County Road F. The city assisted with the renovations to modernize the offices to convert it to a high-end, multi-tenant facility. Once fully leased, the developer anticipates as many as 600 jobs at this site.

Nextek Development - Gradient Financial Group purchased and undertook major upgrades to a vacant medical office building at 4625 Churchill Street north of Hwy 96. Gradient moved their software division Nextek to the Shoreview location, and their growth plan projects up to 100 employees in the next several years. The project was financially supported with a grant from the city.

WATERING TIPS

Save water this fall while keeping your lawn healthy! Healthy lawns only need around two inches of water each week. That's about 20 minutes of watering twice a week. Be sure to water before 11 am or after 5 pm.

KEEP IT CLEAN

Shoreview's beautiful lakes, wetlands, and streams need your help! Sand, salt, dirt, leaves, and pet waste can find their way into our storm sewers, leading to pollution and algae, turning our lakes green. You can help keep our city's water supply clean!

PICK UP AFTER YOUR PET

Whether its in your lawn, on the sidewalk, or at the park, pet waste carries harmful bacteria and phosphorus into the water supply. Pick up after your pet and put pet waste in the trash to make sure it doesn't reach the storm sewer system and our local bodies of water.

RECYCLE YOUR LEAVES

Mulch them, bring them to county yard waste sites, or contact your trash hauler to find out what yard waste options they provide. If you use a leaf blower make sure leaves don't find their way into the street. Grass clippings should also be kept out of the street.

ADOPT-A-DRAIN

Residents can adopt a storm drain online! By adopting a storm drain near your home, you're protecting the water supply throughout the city. Simply keep the drain clear of leaves, trash, and debris. In winter you can help keep the drain clear of salt and sand build up. Visit adopt-a-drain.org to adopt a drain near your home.

RAMSEY COUNTY YARD WASTE SITES

Free yard waste sites are open through November 30 for leaves, grass clippings, brush and other plant material.

EMERALD ASH BORER IN SHOREVIEW

All native ash trees in the city either are or will become infested with emerald ash borer (EAB) unless they are treated.

EAB is an invasive beetle that is killing ash trees throughout the Twin Cities and beyond.

What are some of the primary signs that a tree has EAB?

- Outer bark flaking off revealing lighter colored bark due to woodpecker activity
- Loss of leaves in the canopy

What are the options for ash trees?

The only options for ash trees are treatment or removal

Treatment

An insecticide injection is an effective method for trees that have minor signs of EAB damage

The city treats hundreds of public and private trees through the EAB treatment program in the summer.

Private tree companies also offer insecticide treatments for eligible trees.

Removal

Work with a licensed tree company to remove infested ash trees on your private property. [shoreviewmn.gov/tree-trimmers](https://www.shoreviewmn.gov/tree-trimmers)

The city is removing ash trees in the public right-of-way based on available funding and priority.

A PEACE OF MY MIND

The program will be held October 24-28 at the Shoreview Community Center and will include:

- American Stories Banner exhibit featuring 54 portraits and personal stories from people of diverse backgrounds responding to the question “What does peace mean to you?”
- On-site studio allowing up to 100 community members to have their picture taken and answer questions such as “When have you bridged a divide?” or “When have you found unexpected courage?”
- Keynote presentation by Mr. Noltner. He will share his cross-country story to reveal the wisdom of everyday Americans and their stories of hope, transformation and forgiveness. More information on this program will be coming in August.

KETTLEBELL TRAINING

This class uses kettlebell conditioning drills to provide a total body workout.

Power strength

This weightlifting class uses barbells and dumbbells and is focused on building muscle mass and strength. We'll use heavier weights with lower reps to focus on technique.

CYCLE RAVE

We pedal to the music and that's it! Experience a fun, crazy party on your bike! You will be amazed at the workout you get.

CYCLE TRAINING

Ideal tool to compliment the outdoor cyclist. Doing hills, sprints, flat roads while using time, speed, and distance drills, this workout will help increase your overall performance in speed, power, and endurance.

TOTAL BODY WORKOUT

Incorporates exercises designed to enhance your agility, speed, power, strength, and quickness. Equipment used may include weights, TRX (suspension training), kettlebells, bands, benches, and BOSU® balls. The class will also elevate your heart rate as you are challenged with drills in either circuits and/or a stand-alone station.

POWER PUMP

- Weight training with free weights and dumbbells.
- Build lean muscle with different tempos for reps, higher reps, and supersets.

CARDIO KICKBOXING

A dynamic and energetic class that combines kicks, punches, and blocks. This athletic-based class is easy to follow and provides a challenging workout.

ZUMBA®

Grooving to the beats of salsa, reggaeton, cumbia, hip hop and merengue, this class feels more like a dance party than a workout, which is exactly what makes Zumba® so popular! The Latin-inspired dance workout is one of the most popular group exercise classes around.

60/40

The first 60% of the class is cardio – either high/low impact cardio, step, kickboxing, or dance followed by the remaining 40% of class time to execute effective resistance exercises.

BARRE PRINCIPLE

In each energizing and targeted workout, you'll use the barre and exercise equipment such as mini-balls and small hand weights to sculpt, slim, and stretch your entire body.

THE RESISTANCE WORKOUT

Incorporates strength training exercises using various pieces of equipment and/or your own body weight. Class focuses on all major muscle groups with some added attention to form. Progressions can include compound exercises and functional balance exercises.

STEP CARDIO

Warm up with basic step moves and then learn fun choreographed patterns, combinations, and movements on an adjustable step.

Dance your heart out while getting an amazing workout

FUNDAMENTAL COMBO

Low impact cardio followed by basic strength training.

H.I.I.T. (HIGH INTENSITY INTERVAL TRAINING)

MIND/BODY CLASSES

STRETCH AND BALANCE

A beneficial blend of balance exercises and static (holding) and dynamic (moving) stretches.

YIN/RESTORATIVE YOGA

This grounding practice will have fewer postures which you hold for longer periods of time, allowing you to focus on breathing into the connective tissue (fascia) that surrounds the joints in the body.

YOGA BASICS

This class is based on physical postures, deep breathing, mindfulness, and listening to the body. A slower paced class that focuses on fundamental postures. Great class for beginners or for one seeking a modified (gentle) yoga class option.

HOT YOGA

Intense practice that will move you through powerful and aggressive postures and/or series. This practice is meant to detoxify the body, build strength, and burn calories through movement, breath, and heat. Designed for intermediate to advanced levels.

Class temp range is 80-90 degrees.

FITNESS PILATES

Focus on balancing all muscle groups, strength, and flexibility, with an emphasis on challenging the core muscles with each movement.

POWER YOGA

Students will focus on linking conscious breath with a vigorous and mindful flow. Participants will build strength, flexibility, and concentration while cleansing the body and calming the mind.

YOGA/PILATES FUSION

The perfect combination of Pilates and yoga! Receive the benefits of core training, muscle contraction and lengthening, isometric holds, balance postures, and mind/body awareness.

YOGA SCULPT

Fusion of vinyasa yoga and strength endurance training. This unique and intense workout incorporates hand weights and is designed to tone and shape your body. Build stamina through a series of squats, lunges, crunches, plank holds, cardio work, balancing postures, and stretching.

If a child does not meet the basic requirements of the level registered for, the instructor will adjust the child's level.
