Development Projects Bringing More Housing, Business, and Jobs to Shoreview

Shoreview continues to experience a strong wave of development and investment that will bring additional housing options, new businesses, and hundreds of quality jobs to the community.

The city council, economic development authority, and economic development commission all work together to ensure that Shoreview maintains a strong, healthy, and positive business climate.

ECONOMIC DEVELOPMENT

The Lex at 4100 — a project involving a major renovation of an older office building in the Shoreview Corporate Center. The city is assisting with the renovations to modernize the corporate offices and convert it from a single user to a high-end multi-tenant facility. An older vacant building has been torn down to make way for a new upgraded parking area and entrance. The building is fully leased with companies including technology company PTC, Progressive Insurance, Great Waters Financial, Alerus Financial, and Circle of Life administrative offices.

Seven Lakes — the former Deluxe campus at Victoria Street and I-694 will become a med tech/high tech, and manufacturing space, with a multifamily apartment development. The Seven Lakes master plan was approved on the 50-acre site.

- Scannell has begun construction of the first 150,000 square foot building in Seven Lakes Phase 1, with global company Carlisle Fluid Technologies occupying the majority of the facility.
- A second building in Phase 1 will be under construction by late summer for a 130,000 square foot facility that is expected to be home to a growing automated technology company.
- Also under construction in Seven Lakes Phase 2 is a 150,000 square foot building that will contain the new pharmaceutical operations of Fairview Health Services, as well several other medical services and operations. Fairview is expected to add 650 jobs to Shoreview with this project. An additional 200-300 jobs may be added in the future. Construction on the project should be complete by the end of 2025. In addition to the building value of \$27.5 million, Fairview is investing over \$45 million in tenant improvements.

Rice Street Crossing – development plans for the Rice Street Crossing redevelopment project by Enclave Companies at 3377 Rice Street have been approved by the city. The project will transform the 11-acre city-owned brownfield vacant property at the southwest quadrant of I-694 and Rice Street with a 293-unit, four-story apartment building that will include eight live/work units, a quasi-public outdoor community space, and approximately 5,200 square feet of restaurant/retail space. The project will include 20% of the apartment units being dedicated to people at 50% of the area median income, which will be the most deeply affordable housing the city has financially supported. The developer, Enclave Companies, hopes to begin environmental cleanup and site work by early fall of this year.

HOUSING DEVELOPMENT

In just the past few years, Shoreview has seen over 1,600 housing units of apartments and townhomes built, under construction, or approved – greatly expanding the variety of housing choices that are available. These developments have included affordable housing mixed with the market rate residential, adding 222 affordable units to the city.

Aloma apartments – construction of the Aloma at 4066 Lexington Avenue is nearly finished. The 200 apartments next to the Emrik SV and Loden SV, will include 20 affordable units. The total number of apartments in the three buildings is 610 living units, including 44 affordable units.

Gramsie/Hodgson multifamily – work has started on the construction of 53 apartments and 21 rental row-style townhomes that will target moderate income residents..

WATER QUALITY REPORT

Shoreview monitors city drinking water each year, as required by federal law. The results for 2023 show no contaminants detected.

FALL TREE SALE

Shoreview is partnering with Tree Trust, a local non-profit, to sell low-cost trees to residents through a tree sale this fall. Trees are very important to our community, providing many environmental, social, and economic benefits. Trees are being removed in high numbers, particularly due to emerald ash borer (EAB). Shoreview encourages residents to replant trees to replenish the community forest.

Ordering will take place online in August. Trees will be available late September/early October.

Visit the city website and this page for more information:
<https://shoreviewtreesale.myshopify.com/>

DETAILS:

- Shoreview residents only
- One tree per property
- For planting on private property in Shoreview (not in boulevard)
- Bag of mulch is provided with tree
- No refunds or warranty

Help Keep it Clean!

LEAVES

In a typical forest setting, leaves fall from trees to the ground below, providing habitat to wildlife and returning nutrients to the soil as they decompose.

In a city where there are lots of streets, parking lots, and buildings, leaves wash away into storm drains and carry all their nutrients into nearby water bodies. These nutrients accumulate, lead to algae growth, and disrupt ecosystems.

What can you do? Keep leaves out of the street and storm drains!

FALL YARD CARE

Rake or mulch your leaves this fall to prevent them from clogging storm drains, washing into local water bodies, and smothering your lawn.

- **Rake** and collect leaves to bring them to county yard waste sites or contact your trash hauler to find out what yard waste pickup options they provide. See below for yard waste site hours.
- **Mulch** by mowing over the leaves on your lawn. Mulching breaks leaves up into small pieces and helps keep your lawn healthy by fertilizing it without needing to add extra fertilizer. Mulched leaves stay in place in the grass better while they decompose and avoids smothering your lawn like a mat of soggy leaves. A general guideline is to mulch when leaves cover 50% or less of your lawn and rake and bag when there is more leaf coverage. Try mulching regularly!

Resident Resources

DO YOU HAVE AN ASH TREE ON YOUR PROPERTY?

Main characteristics to look for in an ash tree:

- Compound leaves: there are 5 to 11 leaflets joined on a stem
- Opposite branches: the branches grow directly across the trunk or stem from each other

Now is the time to make a plan for removal of your ash tree if you have not been treating it. Ash trees are being infested by emerald ash borer (EAB), an invasive insect that attacks and kills ash trees native to Minnesota.

Treating trees with an insecticide trunk injection is effective when it is started early as a preventative strategy. Many trees that have not already been treated are too heavily infested for treatment at this point in time.

Contact licensed tree companies for estimates on tree removal. The city does not have funding to assist with tree removals on private property.

TIPS FOR HIRING A TREE CARE COMPANY

- Check the list of licensed tree companies shoreviewmn.gov/tree-trimmers
- Get more than one estimate from licensed companies
- Don't pay for work in advance
- Ask about the company's certifications and experience
- Make sure you understand what work is included in the estimate

RAMSEY COUNTY YARD WASTE SITES

CURBSIDE MATTRESS COLLECTION

Mid-October through mid-November

Did you know that there's a way to recycle your old, used mattress? Most of the materials that make up a mattress can be recycled, such as metal, wood, and foam. To separate these materials, mattresses need to be deconstructed through a special process. **Second Chance Recycling** is a social enterprise business in Minneapolis that recycles mattresses.

Shoreview is partnering with Second Chance Recycling and Ramsey/Washington Recycling & Energy to offer FREE curbside mattress collection for a month this fall.

- Collection month will run mid-October through mid-November
- Limit four per household
- Typical curbside collection prices run approximately \$100 per mattress and box spring.

Check the city and Second Chance Recycling's website for information on how to sign up.

DON'T FLATTEN BOTTLES AND CANS

Save yourself some time and effort. Don't flatten bottles or cans before putting them in your recycling cart.

WHY?

It has to do with the sorting of recyclable materials that happens after our materials get picked up.

Sorting facilities separate materials through a variety of different methods. A machine first separates flat paper and cardboard from the more three dimensional bottles and cans. When bottles or cans are flattened, they can more easily get mixed up with the paper and end up in the wrong place.

So, before you put your recycling in your cart, break down your cardboard boxes and don't flatten bottles and cans.

SHOREVIEW COMMUNITY FOUNDATION

Sponsors and supporters of the Shoreview Community Foundation gathered May 21 for the annual “Evening with Friends” event. Music by the Shoreview Strings greeted guests as they entered the Shoreview Room at the SVCC. Tycon Companies was the Event Host, with dinner served by Deco Catering. During her years in office, she championed advances in education, voter registration, health care and the environment. In her remarks at this event, Gov. Brown commended the efforts of the Shoreview Community Foundation to make a difference in the life of Shoreview, and encouraged all to look for common ground to work together to find ways to improve our community. Proceeds from Evening with Friends support grants awarded twice a year by the Shoreview Community Foundation to organizations and projects in the focus areas of human services, arts and culture, recreation and wellness, and historic preservation.

CLIMATE TALK WITH DR. MARK SEELEY DISTINGUISHING EL NIÑO FROM EL NONSENSE

Join Minnesota's beloved climatologist Dr. Mark Seeley for his presentation: to learn what we know and don't know about Earth's large-scale climate features and how they control various weather patterns. The El Niño Southern Oscillation (ENSO) signal is a legitimate forecasting tool in meteorology but only for certain geographic regions and seasons. What are we expecting for this winter?

As a faculty member in the U of M's Dept of Soil, Water, and Climate department from 1978 to 2018, Dr. Seeley participated in thousands of public speaking engagements, meetings, media interviews and person-to-person interactions where he shared his considerable knowledge of the critical relationship between climate and agricultural production.

ICE SKATING INSTRUCTION: GROUP LESSONS

Get an edge on winter by enrolling in ice skating lessons early.

PRE-SNOWPLOW | AGES 4 – 8

With a mix of fun games and drills, this class will help participants gain the strength and confidence to stand on their own while introducing preliminary skating moves and techniques.

SNOWPLOW SAM | AGES 4 – 10

Participants will learn to skate in a safe and fun environment. This class introduces preliminary moves that will help develop the familiarity, coordination and strength needed to maneuver on skates.

LEVELS 1 – 3 | AGES 6+

Our leveled classes encourage participants to trade in hesitation for excitement as their confidence grows with each stride. Participants will focus on skills that build their agility, balance, coordination and speed.

Helpful tips for skaters: lace skates more snugly in the middle of the shoe than at the top or bottom for best support. Skates should fit correctly – don't use skates that are too big. Keep the blades sharp. Wear one pair of light weight wool or synthetic socks. Cotton socks are not suitable for skating. If a child does not meet the basic requirements of the level registered for, the instructor will adjust the child's level.

Helmets and skates: for safety, all participants are required to wear helmets. Bike helmets are acceptable. **Helmets and skate rental are NOT available at the rink.**
